

# Georgian Nurse Practitioner-Led Clinic

## Volunteer Board Opportunity

The Georgian Nurse Practitioner Led Clinic (GNPLC) provides team based interdisciplinary primary care and a range of health services to patients across the greater Barrie area.

The focus of our board is to provide direction to and to work collaboratively with the Executive Team through a governance lens, setting strategy of the organization, and oversight of its fiduciary duties.

The nine-member volunteer Board of Directors has one vacancy and is inviting expressions of interest for an opportunity to serve our patient community and advance our strategic priorities. The GNPLC board consists of local NP and community leaders representing a broad range of skill sets. While applicants of all skills and experiences are encouraged to apply, individuals with financial expertise in the non-profit or government sector are of particular interest.

The successful incumbent will be expected to attend 6 board meetings annually as well as sit on the finance and audit committee. This is a three year commitment with a possibility of renewal.

The board actively supports a culture of diversity and inclusion. We encourage applications from all who reflect the diverse communities that the GNPLC serves.

To explore this governance opportunity further please send your expression of interest and your resume addressed to the Board Governance Committee to [careers@georgianNPLC.ca](mailto:careers@georgianNPLC.ca).
